## Product Description

### Home Use Garbage Disposal Food Waste Composter With 2.5L Bucket

#### Product Description

The Food Waste Disposer is a revolutionary device. It transforms kitchen waste into fertilizer in 4 - 8 hours via one-button operation. It auto-calibrates work time according to waste moisture, streamlining kitchen work and reducing cleaning time while benefiting the environment.

The operation has three steps. Drying uses high heat to drain waste moisture for decomposition. Grinding employs fast-rotating blades to pulverize waste for fertilizer. Cooling makes the bucket safe to remove after grinding.
